Phone: 206.851.7749 Email: khanes@gmail.com

Objective: To secure a position as a UX Program Manager that leverages my creative skills, web, and mobile technology experiences to make the world a more well-designed place.

Work experience:

Freelance: January 2010 - Present

Bondi. Designer

- Conceived, created spec, and implemented features for iPad magazines including Vogue, Rolling Stone, and Playboy
- Iteratively enhanced existing project deliverables with dev and PM team in an agile environment

Fathom. Principal Designer

- Designed user experience and interaction for the V1 of a web-based music service (make sure whatever formatting keeps it to one line)
- Created all graphical and typographic elements
- Prototyped rapidly in conjunction with iterative development

Mozilla Corporation. Community Project Manager and Designer

- Designed features and spec'd functionality for Firefox 4 Panorama (#1 browser innovation of 2010)
- Coordinated distributed feature team of 5 people in 3 countries
- Performed daily bug triage to allocate development and design resources

Microsoft Live Labs, Seadragon group: April 2008 - January 2010

Contractor

- Led community outreach through team blog, social media, technical support and documentation
- Designed and developed mobile, desktop, and web applications in an AGILE environment
- Presented design and strategy at cross-division meetings and conferences
